Soul-Hacker - April 18, 2009, 2:23 pm

Title says it all !

[David]-- X - April 18, 2009, 2:42 pm

nope, mods arent allowed to edit posts or ban, plus you cant ban someone a higher rank. :)

Mods can edit posts and ban people.

I'm pretty sure mods can't ban other mods, only Admins can ban mods.

I was Gonna say the same thing as Precision..

Also what would the point be, If You assigned someone to be a moderator and they could Ban the Owner(s) of the site...

Lol?

Shadowstriker - April 18, 2009, 2:56 pm

No they cant.

[too short]

Omniscient - April 18, 2009, 5:47 pm

Curious about why you ask this and need such a fast response.

Fallen - April 18, 2009, 5:49 pm

This seems to be an outlandish question, and why do you need an answer so fast?

Conan - April 18, 2009, 7:06 pm

lol hes crazy ban him

Goku - April 18, 2009, 8:24 pm

no, i tested it out once on crow XD :P. At first, yeah, mods could ban other mods, but it was a mistake. Mods CAN'T ban other mods. Only admins can ban mods. I think admins CAN ban other admins though. And editing posts, I'm pretty sure mods can edit other mods posts, but not the admins post.

hackfromthegrave - April 18, 2009, 8:27 pm

maybe he was planning to become a mod and take over hf and turn us into slaves

i find it strange that mods can edit other mods posts.

Obergauleiter G - April 18, 2009, 8:39 pm

he wanna haxxor with his haxxor1buttonhackprogram a mod. watchout.

Goku - April 18, 2009, 8:39 pm

? it's THESE kinds of posts that get people warned is when the only thing you can contribute is a "quote" and a "I lolz". If you're not going to post something USEFUL don't post at all.

Maybe he has his own forum and he is root-admin and MAYBE one of HIS mods there is acting strange?

So he want's to know if it's possible if that crazy mod could ban his staff lol.

Just an idea >.>

SkullTraill - April 18, 2009, 10:03 pm

If he had his own forum, he would know ?

Soldier of Fortune - April 19, 2009, 7:35 am

Mods CAN ban other mods...and it's been that way since...well some of you guys will know. And mods can't ban admins, by the way, but as I noticed CAN edit their posts.

Omni, sorry if I shouldn't have said that, but since none of us mods here will abuse it, you have nothing to worry about :)

JackH - April 19, 2009, 7:43 am

Mods can ban mods i think. I remember on a forum ages ago two mods kept banning each other.

I didn't know mods could ban mods O_O

A???????? - April 19, 2009, 7:48 am

I used to ban mods whit other mods power, yeah, so cool. ?

Goku - April 19, 2009, 7:51 am

Mods should NOT be able to ban other mods. That's EXACTLY what Omni told me when I test-banned crow to see if it was vulnerable or not. He told me he fixed the problem, and if mods can ban mods then that needs to be fixed and should be reported to Omni ASAP. I don't know how many times a mod account has been compromised (including my own at one time). Having mods be able to ban other mods is like asking for alot of trouble.

Soul-Hacker - April 19, 2009, 8:13 am

Thanx every body, omni, crow, any one, please lock this thing, now i know if mods can ban mods and if admins can be banned by admins :]

Note = Is Omni and Hanzo like friends or some thing ? - Just wondering !

Warbiest - April 19, 2009, 8:16 am
