Thread: [Regarding Pm's.](#)

<https://hackforums.net/subscribe.php>

Here it says:

"Additional 1250 messages for PM folders (1500 total)"

So that means normal members can only store up to 250 pm's?

Well right now I got a total of 349 pm's.....

"Private Messages (Unread 0, Total 349)"

Or does the 250 only mean the unread message's? Oo

Yeah I know it's not that big of a deal....but Omni see's it as a "Benefits of becoming a subscriber includes:" so it's not that un-important after all lol.

Also I'm sure pm's fill up the site's storage....

I could be wrong about this....maybe I just understood the context of the text wrong....

Peace ?

?

Hmmm, interesting.

Lord Omni, What do we do? Shall I Kill Duke o(*_*)o ?

Yeah, that smiley is hard. Ask Omni, he will put it back, especially since youre a long time member.

@The Mornin Booger thingy, Well omni said:

"I am picking on you, Youre like a morning booger that wont come out" :P

Hmm...there was a bug before with mybb not correctly using these settings for PM quotas. I just upgrade to 1.4.5 so can you please tell me what your control panel says for PM box quota? Does it tell you what your limit is? I want to get that fixed. The PMs of this site amount to 100mb in the database which is 1/3 of the posts to give you an idea of the PM activity here.

EDIT: I just tested and I can't send you a PM from my test account.

Quote:â€¢o(*_*)o has reached their private message quota so your message could not be sent. So it does work and you just aren't getting any new PMs from users. You might get subscription

notifications or PMs from warnings and staff but that's it.

Yes it seems to work now.

@skull the name thing is not such a big of a deal. Of course I would like to have my old name back. I already did ask Omni, but I'm sure he has ore important stuff to do. (maybe for reporting this bug, I will get it changed back :D)

Guess thread can be closed :)

Yep I had Hf-l33t for 3min. I changed my name for fun...was just happy to have hf-l33t lol.

And then like a couple mins later I was normal user again....and I'm now stuck with this name LOL
A member here bought it for me and for about 4-5 other members as well. All lost there hf-l33t status...

Because it was a reverse payment. He is now bannned.

Glad to see you still using my siggy ^_^ Hmm I just deleted all my pm's.....but at the top of the page it still says: "Private Messages (Unread 0, Total 350)"
