Thread: [Basics Of Posting Your: Hack,Program Etc.](#)

The Janitor - September 20, 2010, 12:08 pm

Hi Hackforum,

This is my first tutorial, Please do not flame. I wanted to make myself usefull so i decided to make a tutorial on the Basics of posting your:Hack,Program Etc. If a suchlike tutorial Already exists, Please report the thread so mods will delete it.

Table of ContentsLast Updated,FUD (Optional)

Name Of Program

Virusscan

Screenshots of the program

Noob Protection

Credits (Who made the sources, tutorials you followed etc)

Download Link(s)

Step 1:

Last Updated/FUD:

[*] Is it outdated?

[*] Is it FUD (Fully Undetected)

[/list]

Post the last time you Updated/Created your program, this way we (The people of Hackforum). Know if it is still working. You can see if your Program is fully undetected by scanning it on the following site:

<http://scanner2.novirusthanks.org/index.php?session=94046132646109786628762711627188592394773273>

Be sure to check the box were it says : Do not distribute this sample. If you don't check this box, It will be sent to the virusscanning Companies, Making it become detected earlier. As soon as someone says that it's detected by one of the 16 Virusscanners, Please put this in your post.

Step 2:

Name of the program, What is it, What does it do.

By posting the name of the program we know who the maker is, and so we can find leechers earlier.

Please give a valid description of what your program is Is it a crypter, a keylogger, a binder, a file pumper? Also explain what the program does (This way noobs can get familiar with program names

).

(For Crypters: What can the program crypt? Darkcomet, CyberGate, Keyloggers etc. Is it compatible with all the OS's: Windows XP SP2,SP3. Windows 7 x64, and so on.)

Step 3:

Virusscan

Most people on Hackforums will not download a file without a virusscan. If you want your Program to be FUD For a long time scan it only on the following site:

<http://scanner2.novirusthanks.org/index.php?session=94046132646109786628762711627188592394773273>

Be sure to check the box that says "Do not distribute this sample" or else it WILL be detected soon

After scanning it copy the text (or make a screenshot) And post it in this section of your post. This way we know if the file contains malicious software, (Be sure to scan EACH AND EVERY FILE That is in the package) Everytime you update your program be sure to post a new scan, old scans are not valid with new programs.

Step 4:

Screenshots Of The Program.

A first look is the most important thing, We want to know what are the abilities of the program and if it has a nice GUI. Be sure to post screenshots of it. (Screenshots can be made with an easy tool called "MWSnap" google it and download it)

After you took the screenshots upload them on: [www.\[censored\].com](http://www.[censored].com)

Post the screenshots in a spoiler, so its easy to read.

Step 5:

Noob Protection.

There are a load new people (noobs) here on Hackforums, because they are new they will scan the file on virustotal. Be sure to put an ENCRYPTED pass on your winrar file, you can crypt your password on the following site: www.crypto.com .

Step 6:

Credits.

It's impossible to make a program on your own, you have read a tutorial that has helped you forward, therefore they deserve to be in your post. People who made Sources of the programs have put their time , to make it easier for you, never forget to thank them. People who helped you fix errors that were in your program. Without them you would not have made it this far.

Step 7:

Download Link(s).

Be sure to upload your files on a decent downloading site here i will list some of my favourites:

Free Download Sites Spoiler ([Click to View](#)) [www.#](#)

www.mediafire.com

www.#.com

www.#.com

Make Money With Download's.Spoiler ([Click to View](#))

www.sharecash.org

www.filesmy.com

Make Money With shortening URL's.Spoiler ([Click to View](#))

adf.ly

www.linkbee.com

bit.ly [WARNING: potentially infected]

I hope i helped you with this tutorial,
Good luck!

Gtacllick

SRH - September 20, 2010, 12:44 pm

looks great i think all new people need to read this lol

The Janitor - September 20, 2010, 12:49 pm

Thanks for your feedback :) just trying to help, i failed a load of times when trying to make a thread (Even got warned for it) We learn from mistakes, so did i :]

The Janitor - September 21, 2010, 6:28 am

23 views 2 Posts ? Feedback please

MasterMind98 - September 21, 2010, 9:44 am

Nice thread I find it very useful, and mybe others will also.

Thank you for nice feedback , i hope it will too =D

Telhast - October 13, 2010, 10:33 am

A really good thread ,you could've made it a bit more eye catchy using some font color and stuff ,but a great first post on the forum . And, one more thing -

"This is my first tutorial, Please do not flame. I wanted to make myself useful so i decided to make a tutorial on the Basics of posting your:Hack,Program Etc. If a suchlike tutorial Already exists, Please report the thread so mods will delete it."

Really great dedication , you'll do great on these forums .

ha9 - October 13, 2010, 11:32 am

Amazing!!!! should be useful

Darb - October 13, 2010, 11:46 am

It is Looking very Nice !

I Will tested it :)

Good Job and nice Work, Dude

alif_jr@ymail.com - October 29, 2010, 11:38 am

ok, i will try to do it

nice info

The Janitor - October 31, 2010, 10:13 am

Hey there,

No problem, just trying to give back to the community :]

Kind regards

gtaclick

Prastinateclux - October 31, 2010, 10:23 am

hey thanks,very good thread=)

iQosmo - October 31, 2010, 11:32 am

thansk dude pretty nice....

The Janitor - November 6, 2010, 5:43 am

Thank you all for the nice feedback :]

IvyMongrain - November 6, 2010, 3:52 pm

Pretty nice guideline. Now I only need to know how to get people to reply to a thread - sighs at more than 100 views w/o any feedback

btw. in the links to cash downloads there's Spam.org (guess it's supposed to be \$hareca\$h and was replaced)

The Janitor - November 8, 2010, 10:05 am

Hey There,

People will reply, just ask for feedback in your thread, tell them you need to improve it, but in order for improvement replies are needed.

Kind regards

Gtacllick

The Janitor - December 11, 2010, 6:08 am

Shameless self for the sake of helping others :]

Fallenbot - December 11, 2010, 6:27 am

Some coloring would make your thread look better.

The Janitor - December 11, 2010, 7:15 am

(Dec 11, 2010 07:27 AM)SlimDeath Wrote: [\[CITE\]](#) Some coloring would make your thread look better.

Ok thanks for feedback, will do that in future =P.

Question: Am i allowed to copy paste this thread and change colors, and post it in tutorial section?

OneForth - February 17, 2011, 5:55 pm

Nice thread, Thanks for sharing it

4fun - February 17, 2011, 9:53 pm

thanx 4 this sir ^_^

msg 2 short

??h™ - February 17, 2011, 11:57 pm

THANK GOD! Now I have a thread to point the noobs to. :)

The Janitor - February 21, 2011, 10:11 am

No problem ;)

Just keep making some feedback!

The Janitor - April 5, 2011, 8:38 am

Bump for sake of helping (:

xstownzx1 - April 20, 2011, 5:12 pm

wow dude thanks alot this thread is really helpful when i put up i tutorial i will be sure to reefer to this thread thanks :)

Coleak - April 20, 2011, 11:23 pm

The only thing I would add is, instead of [censored], use imageshack. And, most of the time you do need tk state people in credits other than yourself however, sometimes you know codes of the top of your head, so in this case, you wouldn't need to mention any one but u in the credits.

Good tutorial hopefully it will clean some threads up.

The Janitor - April 21, 2011, 10:56 am

Good tutorial hopefully it will clean some threads up.
Thank you for the feedback,

I will fix this in the next version.

Yes, this was also one of my goals because I was seeing a lot of LQ threads regarding their programs.

Genraven - April 21, 2011, 1:22 pm

I like this thread. It will definitely help out newbies and make our lives much easier ahaha

The Janitor - April 22, 2011, 4:59 am

That's great, the problem is people don't actually notice it :p

Dally180 - July 3, 2011, 3:49 am

Nice post this really helped me (noob) out.

The Janitor - July 3, 2011, 3:51 am

(Jul 3, 2011 03:49 AM)Dally180 Wrote: [\[CITE\]](#) Nice post this really helped me (noob) out.

NP, Thats my main goal :)
