Thread: [I am needing help with basic program](#)

ayabrego - September 21, 2010, 6:56 am

Hey guys I cant be on the computer right now but I am looking for someone who is will to get on skype and I can share my screen so they can help me alot better. I am having trouble adding a variable to an already stored variable.

Post up if your willing to skype with me to help.

Samuell - September 21, 2010, 6:57 am

Erm.

Code Variable = Variable + WhatYouWantToAdd
Explain your question.

If you want to talk on MSN or HackForums PM that would be fine.

I think I can help you with your problem.
