1. Blank one
2. Staff
3. Moderator
4. Administrator
5. GFX Experts
6. VIP
7. Reviewers

But take your time and just let me know if you can help me. I will try to hook you up with some stuff for doing this for me. I want them to be different but as the user bar color I would like for it to be black with blue writing. But just let me know if you are able to help me out.

Thanks a lot,

Hey man I need a cool signature for my new NameChange!

I need a signature with the text, "X Tee" on it. The size doesn't really matter as long as it's just a signature I can stick in forums :D. For features I don't really care as long as the picture looks graphically cool (I'd prefer a kid cudi mini-picture as a render if that works):

What size? 400 by 120 would be nice.

Color/rendering/features:

Gladly accepting a text: JIMM with a background of the UFC logo. It would be lovely if it was animated, also rendered with fire/ice or anything similar would be cool. You can choose the colors.(No pink though ?). If you can, it would be awesome if the Signature would somehow fit in with the color of Hackforums.

If possible, I would like an Avatar. Not really sure what to put on it, hopefully something that applies to Yellow. Possibly a Troll Face on a Yellow Duck (LOL). Be creative if you want. Thanks. :)

Hey man I need another cool signature!

I need a signature with the text, "Laxis" on it (With a cool font). The size doesn't really matter as long as it's just a signature I can stick in forums :D. For features I don't really care as long as the picture looks graphically cool (I'd prefer this picture as a render/bg with the text positioned like my current signature): [http://www.gign.lv/upload/pictures/large/image\\_4336.jpg](http://www.gign.lv/upload/pictures/large/image_4336.jpg) .

Thanks!
