CATMAN - September 27, 2010, 3:03 am

Bad grammar,but awesome GFX tutorial!

Viral221 - September 28, 2010, 8:10 am

this is such a fun tut im been playing with this Font & Color for about 2hours

Delysid - September 28, 2010, 2:11 pm

Hehe yeah! I love GFX, you can play and be creative!

lol!

abcderek - September 28, 2010, 2:54 pm

nice tut looks great keep up the good work!

Bok1ca - September 28, 2010, 3:18 pm

Sure will be more for weekend!

^^

SouR'D - October 2, 2010, 10:57 am

This is A Very Nice Tutorial Bro Nice Work Im Working On Mines NOw...

eyehex - October 3, 2010, 7:56 am

Pretty cool tutorial will give this a try thanks :)

Md0G - October 3, 2010, 8:49 am

I know this is off-topic, but how do you get it full size?

I wanted to post a TuT, but it came out all small D:

And nice text, Imma try it.

yea55 - October 4, 2010, 5:57 am

looks great i'm trying it now

zyvox - October 5, 2010, 2:10 am

Do you notice that every outcome of the other members is NOT as you "wanted" they to do in the tutorial, right? lol

No one added the stops, I think :)

And the stops is what makes this different from a gradient text.

(Place text go to blending options and place a random gradient overlay)

So yeah.

Nice tutorial :)

DellZ0r - October 5, 2010, 6:31 am

easy, but nice.

Try and add some structure into your text make it look special.

whoa... what font is that and can you help me how to add smokey thing?
yours looks cool. good job ?

DellZ0r - October 5, 2010, 7:33 am

font virtual dj,

smokey stuff you can find on deviantart i think.

its called grunge brushes.

then you have the texture in the text thats crackandwall brushes

i found a tut whit same kind of brushes in use: you have the presets in free download together with it;
