Thread: [KissXsis Discussion \[Does contain a bit of spoilers.\]](#)

Taiga - September 26, 2010, 1:01 am

Does contain spoilers. So, if you have never watched the anime, DO NOT READ THIS THREAD <3

My thoughts on KissXsis: I thought it was an okay anime. The first 5 episodes were very eventful and very sexy, and funny at the same time. Then from episode 6 to 10 it started to get boring and by episode 11 and 12 it started to pick up and Keita is now headed to high school holding hands with his stepsisters. I'd rate this anime around a 7 or 8 out of 10 and would maybe re-watch in the future just to see the funny parts in the beginning of the anime xD

On the side note, has anyone watched the OVA for this, and if so is it any good? Let me know, and let me know your thoughts also on this anime <3

Flashnox™ - September 26, 2010, 2:16 am

I thought Kiss x Sis was really good. maybe 7-8/10.

Taiga - September 26, 2010, 2:18 am

Now, I just need to get into other eechi anime. I started to dl 11eyes, but do you have any other suggestions?

YERANUK - September 26, 2010, 2:25 am

Um , the ova is better and KissXsis is not even worth discussing if you watched it all then you must of been bored.

I rate kissXsis a 4 out of 10. I am being honest here , don't see why you would give it a 7 or 8. Does this? anime compare to something like Code Geass? (I rated that a 8) HELL NO!

lol.

For more Ecchi Anime , why not try Negima?

I havent watched it myself , but it's school related .

oh before I forget try , http://myanimelist.net/anime/133/Green_Green also school related
=)

Taiga - September 26, 2010, 4:05 am

im watching the OVA right now, first 2 episodes were not that bad, pretty funny actually and they make out with him more too, haha xD

FamousMassacre - September 26, 2010, 7:56 am

The OVA has more "sexy" scenes than the anime.

Green Green is hentai.

Code Geass sounds mainstream, has to do with mecha, and looks gay.

Lol , you just listed all the animes everyone knows about. I was just comparing kissxsis to an actually good anime (mainstream or not it was good). All your anime recommendations are well known especially in the real anime fan community , no newfags. (not necessarily Sora no otoshimono which came out last year.)

And tbh half the shit you posted is worse than green green

averageuser - September 26, 2010, 10:21 am

I thought the whole concept of the anime was just fucking weird, but that's just my opinion.

Borderline incest.

Taiga - September 26, 2010, 11:35 am

I have 2 more eps to finish in the OVA, im liking the OVA a lot :D

Well , it's technically not incest. Since they are step sisters to him and not related by blood. They can practically marry and it would not be viewed as something "wrong".

The anime just plays with the fact that someguys dream of that situation , where there is sisters you can fuck , without it being incest.

Taiga - September 26, 2010, 12:34 pm

^ which is very very very weird I might add. Doesn't matter if they're not related by blood or not, sisters are sisters O_O, especially stepsisters and it's still considered weird.

Happeh - September 26, 2010, 12:42 pm

I dont think the OVA is finished yet. They release them at certain points in the year. Like Christmas.
^_^

Taiga - September 26, 2010, 12:52 pm

Thought 00 was a pilot to see how well it would do? xD

Either way, still one or two more OVA's left if the Big Guys up top pull through.

Taiga - September 26, 2010, 1:13 pm

It's been two years, haha I'd love to see 2 more OVAs for this series, right next to me hoping for a 2nd Highschool of the Dead season :D

And I want more Kiss x Sis. ?

Borderline incest.

There were not related what so ever. Go and re-watch the anime and read the dialogue very closely. They said they where step sister

Incest is against the rules in all societies, but you know what they say; if it didn't happen, there would be no need for rules against it. In Japan, the Civil Code restricts incest marriages, but incest is not a crime. Incest law was abolished in 1881. There is currently such a taboo on talking about sexual molestation of children that current official figures report only a few hundred cases.

In the late 1980s and early 1990s there was a media panic in Japan about the prevalence of mother-son incest. Mama Love (or Kinshinsokan Monogatari) Clubs began to be opened for men eager to pay large amounts of money to see older women having sex with young men that were promoted as being their son. Women started to come in bringing their own sons or other young boys to watch. Now most of these 'Mama' clubs have some type of amateur night for mother/son couples.

The situation is blamed on the excessive motherly love Japanese women shower on their sons; idolizing them and viewing their sons as the greatest object of their hopes, dreams, and love, and Japan's obsessive exam culture.

A boy's whole future can depend on the senior high school he gets into. The mothers get into a psychological condition where they're aware that sexual urges can stop their children from studying and feel that they are the best option for countering the craving. Some mothers will do anything to make sure their junior high school sons pass the all determining entrance exams. Studies show that almost 80% of Japanese men report they have had some form of sexual contact with their mothers with most of the sexual contact between mother and son beginning at a very early age. A boy's childhood in contemporary Japan, although somewhat more Western than that of other Eastern nations, still includes masturbation by mothers "to put them to sleep." Parents often have intercourse with their children in the same bed with them, and "co-sleeping," with mothers physically embracing the child, routinely continues until the boy is ten or fifteen. One recent Japanese study found sons sleeping with their mothers over 20 percent of the time after age 16. A recent sex survey reported "hot lines" of sexual abuse saying that mother-son incest in almost a third of the calls, the mother saying to her teenage son, "It's not good to do it alone. Your IQ becomes lower. I will help you," or "You cannot study if you cannot have sex. You may use my body," or "I don't want you to get into trouble with a girl. Have sex with me instead." (this is quote from a website)

This anime does bring up the fact of incest, even though there step sibling. In Japan, Incest is a huge problem there. The fact that he sees his sister as sister, and they see him as a lover is fuck part of this anime.

GrizzlyMatt - September 27, 2010, 2:55 am

Joel told me about this anime before and I still gotta get to watching it but ya if its not related by blood then it's not incest? I'd still kinda consider it incest if they were together since a very young age viewing each other as brother and sister, I wouldn't be able to fuck my sister >.>.
