Taking aim/aol crack requests....I charge 10-20 dollars depending on how much time I spend on cracking the account.

Option #1: I will start off with running around 5000 passwords on your screen name, if I hit it with running the 1st pass list I will charge 10 dollars for the name

Option #2: If I don't hit it and you'd like me to continue running the screen name in my cracker I will next run a 30,000 password list and spend another hour or 2 so if I go this far and hit the name I will charge 20.00.

Option #3: If you really want the account bad, I will go as far as running a 100,000 password list that will take all night and charge around 40.00 for the account

So it just depends on how bad you want the account and how much time you want me to spend on cracking it. So feel free to post or pm me with what option you'd like and what screen name you want me to run through my cracker. I have plenty of vouchers if needed and am the admin of <http://screen.name/forum>
