Mine is "My Song" from Angel Beats!

I love her voice -

Second place would be "God Knows" from Suzumiya Haruhi no Yuutsu =P

what do you mean by insert song?

Those are, the songs that are played in the middle of an episode by the anime characters or either just on the background, but they aren't openings and/or ending themes.

"Chiisana Tenohira" would be the one for Clanaad, or "Fuwa Fuwa Time" on K-ON! =)

Spoiler ([Click to View](#))

Sorry, it seems I couldn't explain myself so well (I still need to improve my english), I meant like those songs played on (most of times) a concert in the middle of an episode, not opening nor ending

themes. Example: Suzumiya Haruhi no Yuutsu - "God Knows"

It can also be something like this one on Honey and Clover called "Hachimitsu"
