Thread: [\[Poll\] Membership Upgrading Contest {Member to L33T / L33T to Ub3r}](#)

Decoy - October 1, 2010, 6:46 pm

Nominating Session Over - Let the Voting begin!

I've asked all members I've selected to be part of the poll to come up with a response as to why they deserve to be upgraded. Here are the responses.

Nominee's

[JesusOfSuburbia](#)

JesusOfSuburbia Wrote:I think i deserve ub3r because I have been spending a lot of time here on HF (about a month and a week) helping members and sharing my experience and my skills! I wrote some usefull Tuts too and i give away alot of stuffs for FREE. I have meet many members who helped me out and i try to do the same to make the community better [I'm Italian so my english isn't very good, but i try my best because i love to stay here].

Becoming ub3r will only encourage me more to help out other members, and contribute even more. Thank you for reading, and good luck to all others!

I have contributed to this forum a lot by helping so many people out and by many other things. I'm also a very respectful and mature member, and I plan to offer many more services soon.

I have done a giveaway for some steam accounts, and later on gave some more to my friends with plenty of games. I have also done a service for adf.ly, adsense, and other clicking links for ALL members and they were allowed to post as many links as they want. I am planning on making some more services and maybe a 2day gold pass giveaway sometime soon. This was not really a big deal but I thought I should add this, I have also released a free IM spammer for all members(:

masterano1 Wrote:First of all I would like to thanks Decoy for even considering me to be in a competition of such prestige. Second I would like to send a message out to all the potential voters out there.

Hello to all my fellow HF members! I'm very glad that I was chosen to be a part of this prestigious competition. In addition I kindly ask for your vote so that I may be upgraded to Ub3r, Why should you vote for me? Simple, I pride myself in not only putting out threads and posts of the utmost quality. I strive to make HF a better place by contributing to fellow members and also doing whatever I can to make this community. Now you may think that once I recieve Ub3r that I will change my ways and become LQ, but I assure you that such a thing is not on my agenda and I will continue to good work here for the community. I thank you once again, and remember VOTE FOR MASTERANO1!

[Ulquiorra](#)

Ulquiorra Wrote:Hi everyone, before I start I'd just like to thank Decoy, Lunagron (for nominating me), and anyone else who is supporting me. Oh, and I can't forget about Omniscient either for running this great community! My name is Ulquiorra and I love to learn, help, and just relax here on

Hack Forums. This community is filled with great opportunities and people from all over the world. When I first registered on this website, I instantly fell in love with it. The people, staff, posts, EVERYTHING. I made it my goal to one day become a respected member of Hack Forums - and I'm still working at it. Ub3r is just one step towards this, but it's a huge step that helps my overall Hack Forums reputation (not literally the reputation system, but you know what I mean).

I'd like to show you a few threads that I've posted on Hack Forums:

Hack Forums Marketplace Guide

Download Any/All Adobe CS5 Products Without Downloading a Crack/Keygen

Basic PayPal Limitation Guide

You might have also seen a few giveaway threads in the "Advanced Methods" forum. Now, I understand that showing you threads that I've posted doesn't prove much about me - however, I'm just showing you the beginning of what I have to offer. I can't guarantee anything, but even after becoming Ub3r, I'll still be working just as hard as I was before.

Thanks for reading this message, and I'd like to say good luck to all of the other contestants - I'm sure you deserve the Ub3r status too.

I may help you with social related problems, just PM me. I rap, if you need help with that I can give you help also. I may not be a very respected member but you should go for me because I have been in HF for a fairly long time.

Describe as to why you deserve to be upgraded:

I have been as I would put it quite the active member on this site, while doing so trying my best to maintain HQ posts in majority of what I do whether it be for a Lounge post or a important Marketplace discussion. I constantly strive to better myself and the site by following the rules and not causing trouble amongst other members. I do actively contribute to the site by offering free programs and items that I have available to give away to other deserving members. Now if I am by chance awarded this opportunity to be granted with Ub3r, I will not under any circumstances begin to change my ways, or begin to act differently towards the site and members. I feel that Ub3r is something that is quite special on this site, and is not something to be taken for granted. I would still continue to contribute and maintain what I would call high quality on this site as I plan on staying on this site for many months to come. Thank you for your consideration. :)

Why I deserve to be upgraded: well I have been at HF for quiet a while now..I have been helping

members and making some threads..I have never done flamming..am a member of 3 official user groups..plus I dont have a paypal account and I cant really afford to buy l33t or ub3r for that matter..I have been trying to be a active member of HF lounge section but cant really seem to do it as there is 20 posts limit in 24 hours for regular member..so buying me l33t would help me alot...I will be really grateful to you..

So please do consider me..

Describe as to why you deserve to be upgraded: Well, I'm not here to tell you that I'm the most deserving for the Ub3r upgrade, but I hope you'll at least consider it. I'll start off by showing you a few threads of mine:

[Hack Forums Marketplace Guide](#) - This was obviously my best guide that I have written. It lead to Omniscient creating a "Marketplace Discussions" forum and he stickied my thread in that forum.

[Basic PayPal Limitation Guide](#) - This guide received no where as much attention as the marketplace guide did, but I'm still proud of myself for writing this guide.

I'm also writing a few others guides right now, but I like to take my time. If I rush, the quality of the guide will start to go downhill. If you look in the Advanced Methods forum, you can see that I have a few threads for free eBooks, so as you can see I love giving out some freebies on Hack Forums. I try to help other people as much as possible and I always try to be nice about things - there really isn't a point to being rude to others unless they're purposely trying to piss you off. I'm trying to

participate a bit in the groups too, and so far I've been accepted in the Positive People group and waiting for a reply on my Black Knights application.

I'll update this post if I have anything more to say, but for now, that's all. ?

I currently have 40+ posts and 3 reputation, but it really doesn't matter. I'm also 16 years old and I have some GFX skills, but still learning and I also begin to code in VB.NET. I really haven't been a long member here, but I am planing to become a trusted/respected member here I am also planing to get popular and I want to contribute to the HF community. If I get HF L33t I think all will turn out better and great! I also badly want L33t because I will be able to have the ability to edit usertitle, change my user name, close my own threads, a lifetime upgrade, additional 1400 messages for PM folders (1500 total), ability to give reputation and a lot more.

If you want proof to all of this please contact me with via PM.

Describe why you feel this member should be nominated: He is a really helpful and caring guy, as whenever I or anyone needs help from him, he tries his best to do it. He is also trying to help the hf community, by coding a crypter, which will soon be released, and I have seen his hardwork over 2 weeks. I think he really deserves this, as he can contribute alot more.

Describe as to why you deserve to be upgraded: Because I don't disrespect others even if they disrespect me first. I would NOT abuse my status as I have seen many many members with L33T/UB3R abuse their status's by -repping/rep fucking. I only have one minus rep and it wasn't because of any scamming/flaming/etc. (Feel free to look at my rep) I like to think of myself as a trusted regular member. And last but not least because I don't want to be overlooked on the forum because I'm a regular member, people with L33T status get noticed more.

Spoiler ([Click to View](#)) Good luck to my fellow members who are also participating in this contest.

Describe as to why you deserve to be upgraded: I really think i deserve to be upgraded because of a couple reasons, the main being a am a high quality member, yes i've had a couple slip ups but when people cant take criticism (aimed at the gfx section) And flame, ill defend myself. But im getting off topic. I am a high quality member that has offered many services in the gfx section including free signatures and userbars, i am also a member of a couple usergroups and have been for awhile, im dedicated to the groups and not just in it for a rank. I also believe i deserve l33t because my source of e-money (i dont use money i make irl on the internet) Has been depleted and i havent had paypal money in months, if i had the money to upgrade myself i would and would have upgraded others.

Hope i convinced you to upgrade me or even consider me in the poll.

Thanks,

WHY I DESERVE AN UPGRADE:

I think a person of my caliber deserves to be upgraded because of all the generous donations, graphics, and trades, that I have and will continue to provide the Hack Forums community with..

I have multiple vouches proving I am a High Quality Member;

But like you have said previously. It is Quality that matters, not quantity.

I be'lieve that an upgrade to Leet will not only get me more respect,

but also show how much I have to offer to Hack Forums.

I've been working my way up the ladder for quite some time now;

I'm defiantly ready for all the qualities Leet will bring me.

Oo thought we were suppose to write a short message, I wanted to write like a page. ./ Vote for me if you think I deserve it, and since I messed up the "short" message^^

Here is why I think I deserve it from my original post.

I think I deserve an upgrade to uber because I'm a very helpful member, I have been a member here for a long time, and almost have 500 HQ posts. I have contributed to this forum a lot by helping so many people out and by many other things. I'm also a very respectful and mature member, and I plan to offer many more services soon.

I have done a giveaway for some steam accounts, and later on gave some more to my friends with plenty of games. I have also done a service for adf.ly, adsense, and other clicking links for ALL members and they were allowed to post as many links as they want. I am planning on making some more services and maybe a 2day gold pass giveaway sometime soon. This was not really a big deal but I thought I should add this, I have also released a free IM spammer for all members(:

Decoy - October 5, 2010, 7:02 pm

I guess it just depends on what you consider short haha.
Anyways, If you'd like me to put this in I will.

Describe as to why you deserve to be upgraded: I think I deserve to be upgraded for many reasons. One being that I joined HF over a year ago, I have helped countless people out mainly with programming and making a reasonable/educated decision on what language to learn. I have been coding in Delphi for over a year and I constantly release tutorials/snippets to the Delphi section of HF(Currently 12 tuts/snippets). I also try to be active in the debate section of HF, I try to post my views objectivley while providing links to sources. I am also releasing a free E-Book called "Coding with ADD/ADHD" I have already released it the HF Coders community and I am currently making changes/improving it before I release it to the public. I have sold countless Mw2/steam accounts to HF, never once has anyone even accused me of being a scammer and all thanked me for my good service. I also have never gotten a negative rep, so far only positive. I hope you consider upgrading me to Ub3r and I thank you for taking the time to read this.

What was that, via pm lol? Anyways, I never stated it wasn't against the rules to advertise to get votes. Maybe in my future contests I will make sure it is, but for this one I didn't so I guess that's fair game.

Also, for those of you who are trailing behind. I will be having another upgrade contest shortly. Some people in this poll will automatically extended into the next poll.

Yeah, I mentioned this somewhere in the thread before once I saw some people advertising.

I never made a rule against it, so how can I not allow it, you know?

So, do it what it takes to win.
