Thread: [How to find out peoples E-whoring secrets.](#)

Alright all you do is go to a chat room that everyone uses, wait for some "E-whore scammer" to text you (it wont take no more than 5 seconds), Go along with the conversation till they ask you to pay for something and BAM! you got their method! ?

This won't work because you are not seeing a SUCCESSFUL e-whore.

You are seeing someone who is attempting to get you to pay for something but how do you know that their method works??

Much better way to get advice on how to do this is to read the tutorials and posts in this section of the forums.

Sorry but this is a fail thread.

Well when I used to E-whore, I used to wait for the pedos to msg me ... I don't message them, it's too obvious.

If you want methods, read around. -.-
