DJ Khale?d - October 4, 2010, 8:34 am

Kenpachi's huge XBL Shop! -Temporary \$5 for any item!

Introduction

Status - I'm here!

Please post in the thread rather than PM'ing for now!

- Also Butters' shop, we're kind of working together on this one ;D!

HF User link here: <https://hackforums.net/member.php?action=profile&uid=119113>

As you can see, we're both trusted members of this site so we hope all sales go well.

This is going to be quite a lot to read so i'm going to split it up into sections to make it easier for you to find what you're looking for.

Section 1 - Accounts with gold, MSP or something special! (50's on Halo 3, 10th prestige etc.)

Section 2 - Silver accounts with many arcade games to license transfer or MSP!

Section 3 - DDoSeR Logins, XR Login and everything similar!

Section 4 - XBL Codes from MSP to Membership.

Section 5 - Account levelling or other requests here!

Section 6 - Special offers and bundles!

Section 7 - How to order your item!

Before we get started however, i'm going to explain some of the basics.

- Accounts with arcade games on for sale are valuable due to the license transfer ability.

These accounts allow you to recover them onto your xbox then through xbox.com run a license transfer where you simply add all of the games bought onto that account onto your Xbox itself. To be played on any account at any time.

- The accounts for sale vary from owners. From myself, to Butter's to others and some accounts are stolen. If you wish to receive more information on an account before you purchase it please by all means, send me a PM.

- The accounts for sale are not attached to Credit Cards and are not breaking any HF rules or put you at any risk of getting into trouble.

- If you wish to purchase Xbox Live codes there may be a delay but you will be notified of this upon purchase.

Section 1 - Gold accounts/Halo 3 accounts.

As prices haven't yet been set, please just PM me following the instructions in Section 7 with a price!

I get different codes like 800 UK msp, 1600 US, 1400 Canadian so the price varies.

It depends on what game you want is it DLC or Games on demand or even movies.
