Thread: [\[FREE\] Doing Logos \[FREE\]](#)

20MDM - October 4, 2010, 6:40 pm

I usually do this for forums or companies. I'm only doing this for free because I want moar experience. Just leave the size, a description, and a site.

a logo is not a sig. Usually, a logo, is for a company or a website.

For your experience, make me one :)

I want a small icon/picture on the left (you get to choose it, YAY!) and my name on the left (Isabella)

Chill, I just wanted to try out the font for once. and I like the way it turned out.

I'm very "chill". I'm glad you liked the way it turned out, but I, as the customer, didn't like it.

There are many ways in which you could have incorporated that font into a more professional logo.
