I'll try to make a C++ pack soon, if I can find enough source codes.

TheBlackMarket - October 11, 2010, 12:00 pm

Great collection mate! really helpful.

the_lol - October 12, 2010, 1:49 am

Would this work on vb.net 2010?

(Oct 12, 2010 01:49 AM)the_lol Wrote: [\[CITE\]](#) Would this work on vb.net 2010?

No, it won't. VB6 and VB.NET are two different things.

You can download my source packs for VB.NET tho.

Braco Asshole - October 12, 2010, 3:26 pm

Thank you for this collection. Is this the same with VB.2008?

Milopeach - October 13, 2010, 1:09 am

Thankyou for this Flaming worm, I might have a look into the RAT's and Crypter's, Also wouldn't RAT's be easier for Port Forwarding or things like that because of the .NET Framework 2.0/Socket stability it has?

flAmingw0rm - October 13, 2010, 5:52 am

(Oct 12, 2010 03:26 PM)Vengeful Wrote: [\[CITE\]](#) Thank you for this collection. Is this the same with VB.2008?

No, it is not. VB6 is different than VB8.

Port forwarding has nothing to do with the RAT/source code.

Hyptonix - October 16, 2010, 1:24 pm

looks damn legit. thanks.

You must be HF L33T or Ub3r to REP.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.
