M-L-BeastZ - October 11, 2010, 5:53 pm

"File not found" You may want to fix this, I would like to try it but I can't

sWiff - October 11, 2010, 11:07 pm

fixed No Problem. Have Fun

Rampant - October 11, 2010, 11:19 pm

What are the stealer features... o.O

EDIT : lol only 2 post, sorry but i don't think im gonna try this ^^

sWiff - October 11, 2010, 11:20 pm

FireFox,NO-IP,FireZilla,Steam,DNS...
Enjoy.

MicroNet - October 11, 2010, 11:22 pm

lmao this program looks shady
looks like something my grandma would code hahahaha

i'm agree the GUI doesn't look well but all Function's Work fine

honda123 - October 12, 2010, 4:18 am

thanks for this, going to use it to get the school admin password then fuck some shit up :) so this transfers itself to the usb device if plugged in then transfers itself to the next comp it gets plugged into?

sWiff - October 12, 2010, 4:42 am

no you need to transfer to the usb, but if it gets plugged into it will automatic install itself.

honda123 - October 12, 2010, 4:52 am

says i have insufficient access to the file like priviledges.. can i stop this?
bro your uploading the wrong file... augmentedskills? wtf is that lol

sWiff - October 12, 2010, 5:59 am

i dont know what you mean .. i can help you if you want Do You Have skype Are MSN?
And Nope this is The Work + The Source M8. if you download you can see.

Ayuka - October 12, 2010, 6:22 am

nice infected files.
if you downloaded it, you get fucked , sorry for you.
creates in temp folder : - blablabla.exe
- keylogger.exe

The Janitor - October 12, 2010, 8:39 am

Hey there,

Please post a VALID post, there is a link to a tut in my signature

Also if you are trying to infect us, you failed horribly

Kind regards

Gtacllick

honda123 - *October 12, 2010, 11:44 am*

virus.... not crypted very well though, thank you avg 9 (payed edition)

A Honey Badger - *October 12, 2010, 6:17 pm*

cool asshole, thanks for the infection attempt and you might want to make it not so noticable next time

er0senn1n - *October 12, 2010, 6:25 pm*

It's Infected? how do you know?

versx - *October 12, 2010, 8:03 pm*

Hmm, looks like you just ripped a source code, and are attempting to get money from \$harecash downloads for someone elses work, while trying to infect us as well. I don't see how the builder would ever be detected if you really coded this...

Get the fuck out of here.
