Thanks. Hmm, is it stable?

DeToX - October 12, 2010, 11:36 pm

its pretty stable now compared to when i released the 0.9.3 version... it reconnects to if it doesnt get a connection... and its pretty much FUD to most antivirus's so even if your server does crash, you still get it back on statup :)

Too bad its a .net RAT...

I bought 100 victims, and got only 20 cause of .net -.-

sry for asking, what are the changes in the public version ?

Eternity - October 13, 2010, 12:51 am

Looks good , but why does the USA flag have a different flag?

Edit: Sorry , didnt read the bug section bit. My bad :]

DeToX - October 13, 2010, 1:18 pm

im fixing bugs, private has keylogger and ddos panel already done

Jaman007 - October 13, 2010, 2:05 pm

it works like a charm, thumbs up! =)

KLDM - October 13, 2010, 2:12 pm

Thank's, but it's .net :s

DeToX - October 13, 2010, 2:25 pm

so were a lot of other RAT's lol ;P

Tate - October 13, 2010, 2:26 pm

If you take out the retarded hazard sign in the middle of the GUI, this might actually go far with it's nice GUI.

DeToX - October 13, 2010, 2:48 pm

im gunna change it so u have the option to change the image

Zac-WawaMania - October 15, 2010, 7:21 pm

Backdoored !! Not DOWNLOAD !!

noid - October 15, 2010, 9:44 pm

Dude, gtfo with this piece of shit rat.

i found a bug, whenever i goto tools>update it gives me "Unhandled exception has occurred in your application" or do i have to be a premium member or w/e?

DeToX - November 15, 2010, 2:45 pm

premium... but wait im releasing a update soon... where there will be a free version with news... im started a whole new project.. Called "Shannon Remote Administration Tool" lol inspired by my girl...
