Thread: [Big Proxy List](#)

Ohya - October 15, 2010, 1:19 pm

Hello HF!

I didn't know all that much about Proxies before,
but I've done some research and find them myself (and know others do too) very helpful.. Lol ?

So here I have a 4000+ proxylist which you can use for programs or such.

Download [HERE](#).

Hope it's useful!
Enjoy!

Spoiler ([Click to View](#)) Since what happened with the Youtube View thingy, I've included 2 small Virus scan pics!

Scan total: [img]http://img836.imageshack.us/img836/1964/virusscan1.jpg[/img]

And yes well,

2 days ago, I posted a youtube view increaser which I thought, it was clean.

But it looked like it didn't.

So some people might even got an infection, that's why i'm including a scan result for everything I'm posting. :)

Thanks for the friendly comment! :)
