Thread: [Are there any differences between Kaspersky Internet Security and the Kaspersky Anti-Virus?](#)

L3g1tWa5te - October 15, 2010, 10:23 pm

Hi guys, I am not too sure if there is a difference, if there is a difference which one is better and recommended? Please tell. Thanks!!!

Irelandrulz2 - October 15, 2010, 10:25 pm

AV is just Anti-Virus, Internet Security includes AV's, anti malware, anti backdoor etc.

Ohh my gosh. are you kidding? Well thats stupid, thank you for that information, I would rep u UPPP!!

Now I have to get a refund.

If you are using Kaspersky Antivirus you will need you install seperate Firewall like comodo because Antivirus doesn't include firewall.

Internet security includes firewall.

????? - October 16, 2010, 1:01 am

yes internet security is far better than just AV , well i have extra firewall of zonealarm !!

MaxPain - October 16, 2010, 3:09 am

If you use internet Security You are protected from internet attacks ! and no virus can install to your computer antivirus just do! if a virus downloaded then try to find ! no protection from internet attacks ! i think is better Kaspersky Internet security

ProXiDoS - October 16, 2010, 1:18 pm

Windows Vista/7 firewall is just as good as any 3rd party, but if comparing those two: AV and IS, IS is better, because it's have more features.

Kyuubi - October 16, 2010, 1:25 pm

IS has a firewall and AV does not offer a firewall. I also believe IS only offers the virtual keyboard.
