colinf - October 18, 2010, 10:17 am

Big fan of this but I've heard people say it's out-dated, they didn't show me any alternatives though, do you know of any?

Factor8™ - October 18, 2010, 10:19 am

Nope, i have no alternatives in my mind.

Kyuubi - October 18, 2010, 9:46 pm

I've used this before, it was quite helpful and got my computer programs up to date.

-mothered- - October 19, 2010, 1:51 am

I've never heard of this mate. How accurate is its detection?

iDope -.- - October 19, 2010, 11:51 am

never heard about it...before downloading, may i know what this exactly is?

TheAJMxD - October 19, 2010, 11:52 am

what dose this actully do would be nice to come with a description :)

Upon clicking the link, there is a simplified description.

I'd like to read the op's views on it though.

Kyuubi - October 19, 2010, 8:38 pm

If I remember right, it scans your computer for vulnerabilities and links you to direct downloads (safe) to fix them.
