Thread: [\[TuT\] Changing Your Task Bar Icons \[+ icon pack\]](#)

St?alth - October 21, 2010, 3:58 pm

Description Wrote:A small tutorial on how to change your task bar items to match themes, etc. And it also includes how to clear your icon cache at the end, to make sure your icons stay as they are. Good luck, download link for icon set is below.

Download Link: <http://goo.gl/Y2yT>

Didn't do any editing, because I wanted it to be standard & plain. It's late, and I'm going to fiddle around with Vegas tomorrow when I have time to waste.

Enjoy.

St?alth - October 22, 2010, 8:00 am

Oh I guess nobody likes it then...

MrHooli - October 23, 2010, 9:44 am

Thanks for the tut i actually used it :)

Oh great, glad it came of use to somebody. Thanks.

Science - October 24, 2010, 5:02 am

Lol are you singing in the video at the end?

Nimuel - October 24, 2010, 5:07 am

dude that can be done on Windows 98.
the dumbest video tutorial i have ever seen.

CreamyApples - October 24, 2010, 5:17 am

At least she made a tutorial?

Thanks for the iconset and the tut.

anonymous - October 24, 2010, 8:04 am

i allready known the tut, but tanx for the icon pack

St?alth - October 24, 2010, 8:12 am

No problem, guys. Glad you liked.

Nimuel - October 24, 2010, 10:57 pm

thats what i meant. sorry if you feel rudeness in my last words :(

Pulse? - October 29, 2010, 5:00 pm

Love the theme. The buttons. The desktop. Gimme :D

DrizzyDrake™ - October 29, 2010, 5:14 pm

I agree with pulse, Very nice layout of the video aswell.

St?alth - October 30, 2010, 4:04 am

Thanks guys, appreciated.

spittta - October 30, 2010, 1:42 pm

Thanks. This helped me, I new how to do this, but I wanted the icons.

Thank You,
galaxY

GamingManiac - October 31, 2010, 11:33 am

Thanks for this, they look really cool. if i want to change them back at any stage instead of deleting the icon cache can i simply rename it and that way if i want to change it back all i have to do is replace the new cache?

St?alth - October 31, 2010, 3:16 pm

If you want to change them back just do the reverse process, change the icon back to normal then clear the icon cache, yeah.

spittta - November 1, 2010, 10:55 am

I believe this thread should not go in the Video Editing section. Anyways, you have the Photoshop icon on your computer but not in the download...

Thanks,
galaxY

Pulse? - November 20, 2010, 1:37 pm

Bump for hard work. Nice Tut

Mr Smithy x - November 20, 2010, 4:32 pm

very interesting :D nice tut

infectsword - November 22, 2010, 1:52 am

nice one i like it thanx..

xD

illuminati? - November 22, 2010, 2:30 am

thanks for the wonderfully nice tutorial helped me out, :P

I couldnt get me icons to change.
