What is the downloading link?

X-Shadow - October 27, 2010, 5:56 am

Look my at my another thread.

I recommend you to take a look at MyBB @ <http://www.MyBB.com> since I heard that it's the best and also free forum software that is out there. vBulletin has lower counts of cool plugins then MyBB. Take a look. Also isn't nulling illegal. I hope you don't get in trouble.

No I mean, you copied ours.

We null our releases before anyone else.

Some of the codes used to null are the same.

I am sure you are a member there so whats your name?
