Can't trust it, because no one's downloaded it. Or I would have downloaded.

OldFag - October 26, 2010, 9:41 am

Be careful if your downloading this.

Seems a little bit too shady and sketchy.

HummadJ - October 26, 2010, 12:53 pm

its not infected, when i downloaded it off tpb and installed it and followed the readme to crack it, it worked like a charm

Greek - October 26, 2010, 12:55 pm

-8 rep how can i trust that its not infected just cause you say it not lmao?

HummadJ - October 26, 2010, 12:58 pm

if you checked my -8 rep you would see that it was for posting an adf.ly link, which i dont think is and offense but owelll i understand your right not to trust me

vincent329 - October 26, 2010, 1:09 pm

any proof of it not infected?

mrloicat888 - October 26, 2010, 1:16 pm

maybe he crypted the crack.Cause virustotal found nothing.Of course just because it doesnt say its malware,does not mean its not.Download at your own risk.

Installer: <http://www.threatexpert.com/report.aspx?md5=b2773a33960f46351b0f9653ed1cbdaa>

Crack: <http://www.threatexpert.com/report.aspx?md5=6ca13aa390c474a69ae96b2c9c4bdda9>

Both look like they do what they're meant to do, and don't see signs of a backdoor, but still always be careful.

Don't take it personal, a lot of idiots before you ruined the trust worthy of lower post count, low rep, etc. Members, by failing to infect them. If you are in fact a legit guy you have nothing to worry about.

JoshuaXiong - October 27, 2010, 2:26 am

I already have a copy of this. I confirmed it safe.
