Thread: [\[TUT\] How to Render using Photoshop \[TUT\]](#)

masterftp - October 27, 2010, 6:46 am

Hi this is masterftp aka jairathnem,

This is a detailed tutorial on how to render using photoshop.

Spoiler ([Click to View](#))

[img]http://www.ploader.net/files/96db06bcb37149c12b1d8db71e951371.png[/img]

Comments and suggestion always welcome.?

if u need any help in this feel free to ask me

?

eggstyle - October 27, 2010, 9:07 am

nice, thank you alot!

good job!

Whoa this a easier way to render

masterftp - January 13, 2011, 11:44 pm

felt like in this thread!

Justice' - January 14, 2011, 9:36 am

could you upload the outcoming

yea55 - January 14, 2011, 11:32 am

i've spent ages just rubbing out my render against the background...

seems i've been getting it wrong...cheers mate

Fadó - January 15, 2011, 12:33 am

This seems so time consuming though. How long does it usually take?

masterftp - January 15, 2011, 6:53 am

it takes me like 4-5 mins for a normal render!
