Thread: [\[100% FREE\] Whitehat Copycat 2 :: "\\$43,588.71 in 30 Days" \[DOWNLOAD\]](#)

So it took a little work, but I eventually got it.

Got what? Well, head over to <http://www.whitehatcopycat2.com>.

I got every single thing included in this \$37 (or apparently \$197) package.

I could put the downloads on my CPAlead site, considering the fact that I have bought several eBooks and also downloaded a pack of \$40+ free ones and still haven't made a dime. Or I could put them in my \$#!%Cash downloads, completely separate. ? But I want to give a little to the HF community ?

So, here ya go. Survey-free. Ad-free. 100% free.

Click Tim Bekker for the download.

Technique I used? I haven't used this. He has proof of the money he has made though. If you are talking about the money amount in the title, it's just quoting his site on how much he claims to have made.

And @sevee no problem. :)

Haha that's true. But how many members here on HF do you see claiming very similar things? It's just marketing.
