The Activator may show up on your AntiVirus as a False Positive. It provides a Key for Windows, then Removes Windows Activation Technology, leaving Windows 'Genuine' and trouble free. It can be Updated ?

Enjoy ?

You need to post a virus scan from novirusthanks.org to make sure it is not infected, and include it in the original post.

Ramsay448 - October 27, 2010, 6:50 pm

Yea no problem, ill post them now for you. ?
