I agree...ok,do not post a comment maybe you donot want or you are in a hurry or you bored to do this.But it's nothing to press a button which says "Thanks".It won't take you long to thank someone for his work.Is just a click!!! :/ tell me if I am wrong.

d3v1l401 - November 2, 2010, 12:18 pm

You are wrong because the thanks button just does:

alert("Thanks is always appreciated") and doesnt do anything else. OP won't know you pressed it.

Mackesh Productions - November 2, 2010, 1:54 pm

I think you'r right! The "thanks" button doesn't do anything... It's not so hard to just send a comment "Thx for these codes" or something like that. I hate people that just downloading alot from a person and don't say thanks to him.

Thoth - November 2, 2010, 2:49 pm

Downloading them all.
Thanks OP.
