### Salted RC2 Encryption

This is what I was working on and still finding a good way to store my secret key. anyways....

Original RC2 Encryption can be found [here!](#)

You should look at my other threads with various sources. I used, most probably all of them in this :D

Now back to the point...

In this, what I am doing is, ah! read the source and understand.. and feel free to ask if you are facing any difficulties :)

Here you go :

1) Encrypt and decrypt calling functions :

[img]http://ploader.net/files/d6eb33ea9a749f8a169708c2d6833b71.png[/img]

2) Functions used in encrypting :

[img]http://ploader.net/files/f515a3b56923b3d057bc3484962fa6d9.png[/img]

3) Main RC2 encryption\decryption functions :

[img]http://ploader.net/files/1aacf874dcbdd331202d65091b976828.png[/img]

WaNna see the output :

[img]http://ploader.net/files/dd3a080aa7ed1cfb18189b01cb0243f6.gif[/img]

I think I have already provided you with those sources, I just combined them and used here :)

Here's the [pastebin link!](#)

I hope you enjoy! ?

Hm that's what the RC2 encryption needed a bit of salt. Now it tastes much better ^^

Good job and thanks for sharing.

Good job and thanks for sharing.

Salt adds a great taste sometimes ^^

Enjoy!

i lol'ed at the salt part but as most bullshit it probably serves a purpose amiright`?

**INFA?OUS** - November 1, 2010, 6:39 am

Very nice :) thanks for the share ?
