Thread: [\[Guide\] Quick cash, no clicking ads, no pain and hours of time..No catch.](#)

Cumni I Love You - May 18, 2009, 3:40 pm

First of all, I'm Matt, and this is my guide to making money online.

I have no other sources of money, since my PayPal is hooked up to a dead bank account, and I'm only 14 and have to focus on school, so no job.

But how do I get money to afford new games/computer parts?

I use CashLagoon! You can sign up to CashLagoon at this link:

<http://cashlagoon.com/easy-paypal-money-and-more>

And only that link. Please DO NOT just cut out the end of it and keep it at CashLagoon, just keep the WHOLE LINK. It helps your offers to pend way faster and smoother!

I've made a total of over \$300 using this site, of course I spent it all. Hehe.

But I still make tons of extra bucks, I have about \$10 pending as we speak! And it'll be approved and I'll have it in my PayPal after I finish this guide!

Not only can you spend points/cash on PayPal, you can cash out checks, get cool prizes, and many other things!

You can do EASY offers with real/fake information and get points for it, or cash!

I recommend putting REAL information as it helps the offers approve faster, and I follow the ToS. I made so much money off these guys, I obey them completely.

Anyways, when you're signing up, you'll get to this part after you submit with a bunch of offers. Just click yes to all, and continue. Then you can do those offers, or just close out of that window, login to site, activate it via email, and start making cash!

(^ May take a while to pend.)

Thank you reading this short but sweet guide - I hope you make tons of cash.

The link to sign up again is:

P.S

Ignore the poll, a bunch of people will come on, not reading the thread, nor trying the site, will flame and vote bad things. K.

GNCM - May 18, 2009, 3:45 pm

I'll check it out, although any site that starts 'Free cash' sets off alarm bells for me. Still, nothing is impossible.

Yeah. They might not have the best logos, but it's a great site.

Fragz - May 18, 2009, 3:50 pm

So you don't have to click but you have to fill out endless surveys that if you put your real info in your home will be spammed with spam in the mail. i use cashle the link is in my sig if any are interested. And btw your link is a referral imo.

Your link is a ref link. And CashLe is horrible. And you can put an address off, or use an alternate email.

Don't put your referral shit on MY guide. K, thanks.

Either you use this, or you don't.

Omega - May 18, 2009, 4:08 pm

Hey Great tut! keep it easy going man :D

Fragz - May 18, 2009, 4:10 pm

Lol no duh my link is a referral link? You try to hide your referral link saying that it will help complete offers better? Cashle is good i think. You can play games and win money lol. You don't even need to verify your address to cashout.

Cumni_I_Love_You - May 18, 2009, 4:13 pm

Same with CashLagoon.

CashLe is a bitch. The offers give you BARELY any money. And once you cash out, it takes DAYS. They banned me because they assumed I 'hacked'.

Edit:

Thanks for de-repping me, because it actually does make your offers pend smoother when you were referred by someone. Please read the forums before you go around randomly de-repping people because you think you're always right and you're crappy way of making money is better.

Please don't come to my thread anymore.

Thanks.

Fragz - May 18, 2009, 4:19 pm

Lmao. So you do admit that you lied to try and get referrals. Seems very trustworthy eh? You could just say "Hey guys sign up here, yes it is a referral, but i would appreciate it as a thank you for this guide." Simple.

Cumni_I_Love_You - May 18, 2009, 4:20 pm

Where do you see me admitting to a lie? I didn't lie one bit on this thread.

Yes, it IS a referral link. But it is proven and the owner himself told everybody that your offers pend smoother when your account is referred by another account, not by direct sign-up.

Thanks.

Clear your cookies before you do offers, read some tutorials, and make sure you're doing good offers that have lots of people approved on it. I can find about 70 on your account that'll pend instantly, I bet. Others may take a few hours.

Fragz - May 18, 2009, 4:26 pm

Lmao. He just says that so you will recruit more members? Cough Fail site.

(May 18, 2009 04:26 PM)Androo Wrote: [\[CITE\]](#) Lmao. He just says that so you will recruit more members? Cough Fail site. Please, stop spamming my thread, or I will report you. If you just don't like me/nor this site, that's okay. Just don't flame me and try to get less people to use this. I'm doing nothing wrong, just trying to make an honest extra few bucks here doing this myself, and from a bit of help from the referrals. They don't have anything deducted. You can search on their forums if you want, offers do pend faster if you're referred.

Thanks,
Matt

Make sure you don't do the 48234834834 second long one. There's lots all you have to do is fill one form, and get like \$2. Lol. :)

Most of the offers are just like 'Name, Email, Age, Sex, and then submit.' Bam, \$3.

They came out with more offers today.

Cumni_I_Love_You - May 27, 2009, 5:39 pm

Remember, do NOT do the offers with like 'complete 20 pages,' those are fail.

Just do ones like complete form and submit, and daily offers, too!

Email submits, zip submits, all of those, very easy and fast cash!

Keep my thread alive, please.

Hmm. I wouldn't put in my real info.

You could use Scour to get money, and you don't even need a paypal, but it takes longer :/
There was a thread here a couple days ago that had a scour auto search thingy. I just run it everyday for about 30 mins, and it does 100 searches for me.

No.

You just fill in random offers with fake information. No harm, and they pay you for it.

I don't see why people are getting pissed at the ref. link, I mean, it's win win lol You get some money and we get smoother approvals too!
