Thread: [\[Free\] \[UD\] Stealth Unit Crypter - Megaupload \[Free\]](#)

[ZERO] - November 2, 2010, 11:26 am

I'm releasing this crypter, it could be handy to someone, who can't get into all those FUD Sharecash links. It might be useful for beginners, so here you go. :)

Ok, ok i know its not 0/16, but thats because this is my first crypter :))
When I make my first FUD Crypter, this will be the first place
i'm going to release him, without any Survey Sites or Passwords.

Here to help fellow mates :)

Would you like to find & remove the NOD32 detection?

[ZERO] - November 2, 2010, 7:20 pm

Yeah, i've been trying to do that for a while. Going to try it again tomorrow, going to sleep now.

Do you think you can fud mine as well and after modding still doing his job without corrupting the server? ?

If you can just do Avira and Fprot.

I don't care about the rest. They are easy to bypass. ?
