Thread: [\[Guess the #\] Two 48 hour gold pass \[Guess the #\]](#)

C10Wn - November 4, 2010, 7:10 pm

I want to contribute to the community here at hack forums, I realize it is not much, but it is all I can offer at the moment.

This is how the contest works. I have two numbers picked out, The first person to post one of the numbers I am thinking of between 1-50 wins a card, the second person to guess the other wins the second card.

So let the game begin!
