Thread: [All smilies and Thread icons gone?](#)

?Cooldude? - November 9, 2010, 11:55 am

Is this affecting anyone else? I'm getting a 404 error on the smilies and thread icons. I've tried clearing my cache; the error remains.

Omni has been doing some work on HF, he'll get it fixed soon.

Braco Asshole - November 9, 2010, 11:56 am

????

Yeah, they are gone. Something is wrong.

?Cooldude? - November 9, 2010, 11:57 am

Right, thanks for your fast replies.

Omniscient - November 9, 2010, 12:15 pm

Working fine for me. I've moved all smilies to the CDN.

?Cooldude? - November 9, 2010, 12:19 pm

Okay, testing now. ? ?

Edit: I still can't see them. I'll upload images now.

Probably same as the Halloween logo problem. It probably takes some time for the images to update worldwide.

I thought that might be the problem.

@Omni: When did you move the images?

Grumpy - November 9, 2010, 12:35 pm

Ugh, it's annoying seeing all the smilies broken.

alfonzo1955 - November 9, 2010, 1:49 pm

They are broken for me too.

Braco Asshole - November 9, 2010, 2:26 pm

Working for me. Omniscient moved them to the CDN.

Grammar Rays - November 9, 2010, 2:49 pm

They are working for me, I'm from the UK.

Nightmar? - November 9, 2010, 3:39 pm

They seem to be working for everyone now.?

Braco Asshole - November 9, 2010, 3:47 pm

Yeah, time to request the lock on this one.
