Thread: [True?Love - VISUAL NOVEL! DEMO NOW AVAILABLE](#)

FamousMassacre - November 11, 2010, 6:00 pm

I am currently working on a visual novel, I am working on the story right now but I just wanted to show a quick summary and stuff now!

<http://vndb.org/v5617>

True Love

[img]http://min.us/jcvwEi.png[/img]

[img]http://min.us/icr3P8.png[/img]

Description:

Sakura, a girl barely passing school thinks she lives a normal life, wrong. She goes through multiple experiences, love, hatred, betrayal, most importantly, throughout her adventure, she finds the reason she is living, or is it the reason she is dead?

Edit: Alpha Demo Now Available!

Download <http://www.mediafire.com/?3m9tchp0yh0vky6> - Game

<http://www.mediafire.com/?9vdggnngrvyrqu9> - DLL

I would add a virus scan but VT won't accept files over 20mb. It's not infected, trust me.

What are your thoughts on this so far?

Status - November 11, 2010, 6:04 pm

Gorgon825 - November 11, 2010, 7:16 pm

Pics as in the background and characters?

Either A. Make them, or B. Download them from someone else.

smooth_ - November 11, 2010, 7:22 pm

Woah, this looks legit! Good job bro :D

•Lawliet• - November 11, 2010, 7:29 pm

Very good indeed, you're making a nice job, I didn't know you could make your own VN.
I'll play it as soon as you release a beta for sure =P

FamousMassacre - November 11, 2010, 7:46 pm

I will probably be able to release a small demo tomorrow, around this time.

SewDough - November 11, 2010, 8:00 pm

So far, i've noticed one thing wrong with this.

You have her named as "Sukura" in the game, lol.
Other than that, gg.

Ryuku - November 12, 2010, 5:18 am

Looks great, although I don't recommend using other people's CG.

Looking forward to the finished version.

I'm currently planning on making one myself. I have everything I need, but it's difficult to do it as a solo creator.

thomalk - November 12, 2010, 6:59 am

please for the love of god, include hentai ^^

RANA - November 12, 2010, 8:05 am

FamousMassacre - November 12, 2010, 2:51 pm

I might not be able to release it tonight, as I got in a fight and am going to court <.< Donate to my \$500 fine please?

If I get serious like completely serious about this, I will hire a graphic artist.

But since this would be free, I despise of paying.

FamousMassacre - November 12, 2010, 5:08 pm

I added the demo link into the original post.

Gorgon825 - November 12, 2010, 5:42 pm

Downloading now! Hope its good :D

I was missing a .DLL so some might also need this

<http://www.dll-files.com/dllindex/dll-files.shtml?fmodex>

If you're good at drawing, then you can make your own CG easily. Just scan some sketches in and colour it with Paint Tools SAI.

Oloty - November 12, 2010, 9:54 pm

Because she can.

How do you guys like the (not much of a) story so far?

smooth_ - November 13, 2010, 3:03 pm

Downloading it now, looks pretty good :)

FamousMassacre - November 21, 2010, 1:50 am

I'm uploading my current writing :P

I'm bored, I might write.

Happeh - November 21, 2010, 2:01 am

Make sure you draw all your main characters and you get the backgrounds royalty free.

You know; suing and stuff.

FamousMassacre - November 21, 2010, 2:10 am

What is Royalty?

I can't draw.

Happeh - November 21, 2010, 2:15 am

Royalty Free means there is no licensing laws on the pictures. Meaning you can use them how you like WHEN you like.

Xenochrist - November 21, 2010, 2:20 am

Happeh doesn't only matter if he's making profit from this?

Also, lol at the screenshot "I'm so tired I can't open my eyes ^_ ^"

Maybe. But even so taking people's artwork is still against the law.

FamousMassacre - October 30, 2011, 8:23 pm

I should get started on this again some time.

Almost - October 30, 2011, 10:17 pm

Is there long schlong in this? (Very important to any VN)

Ice Queen - October 31, 2011, 1:57 am

I'm gonna download it later as well. I tink it's gonna be a good one :) I'll tell you later what I think about it when I played.

.Credit. - October 31, 2011, 7:03 am

OMG why is suddently everyone making a visual novel DAMNIT! now my idea isn't original anymore...

Gonna finish the script for 'Night Rain' today btw...

Twisted. - October 31, 2011, 9:31 am

Judging from JUST the screenshot (I shouldn't I know)

It looks nice :D

One thing though, I would change that font sir.

Fox - October 31, 2011, 10:16 am

Seems like a nice VN to play.

I may try this out later after finishing some other VNs. ^^

(Oct 30, 2011 08:23 PM)FamousMassacre Wrote: [\[CITE\]](#) I should get started on this again some time.

Yeah you should. >.<

Your VN is in the list of candidates for deletion for the reason "No updates, No website."

Ice Queen - November 1, 2011, 10:55 am

I just finished it and even though I know it isn't complete yet this is my opinion. it needs more music and Sfx 'cuase now it just feels like everything is flowing by with text and fixed moving pictures. I hope this will help you :3

FamousMassacre - July 29, 2012, 8:14 pm

Bump.

I still have the scripts I think but I don't have the source.

I forgot about this :P

Tasemu - July 29, 2012, 8:49 pm

Nice work, be careful Theref tried the exact same thing and got sued and almost had to take his down.

FamousMassacre - October 28, 2013, 4:59 pm

This has gone no where in the past 3 years.

Probably an abandoned project. Anyone could make this, though. The text boxes indicate that it's made in Novelty.

Bro. I created this... lol

I was just saying I kinda just stopped on it.

Ice Queen - *October 29, 2013, 2:35 am*

The character images and text box do indicate that it's Novelty all right. I advice Ren'py though.

Uchiha Itachi - *October 30, 2013, 7:40 am*

You drew that? :p Darn bro, you're good.

He didn't draw that, those are standard Novelty images.
