##The Ultimate Proxy Machine##

##Unique Endless SOCKS 5 Elite Proxys##

Here is the version 2.0 source code of reverse proxy, written by d3xter & blacklog.

[img]http://i.minus.com/ibfrvPVWvBOA2v.PNG[/img]

Using this Reverse Proxy you can use EVERY windows PC as a SOCKS 5 relay. Due to the reverse technique, it will also work behind NAT/Routers.

I am offering two different download links, one to \$harecash because I paid for this originally and the second is a direct link.

Because the source of this has never been released before.

And to the above barely legible post this allows you to turn your bot's into socks5 proxies.

Can we get a reupload please?

Bacardi - December 4, 2010, 6:44 pm

This can be found free on the net. Why shareshit, nub?

beer30 - February 9, 2011, 5:23 pm

Hate to old threads but can anyone reupload this or send me a link to the source?

zer0day - February 9, 2011, 7:33 pm

Share cash says Files does not exist and you crypted direct link is not working, doesn't decrypt correctly, errors.

Luigi` - February 9, 2011, 7:54 pm

This should be moved to the Coding section, great share bro.

But what this program actually do?

With this program you can use rat victims as 100% anon socks5 proxies. Great stuff except it's very out of date.

dkkiller09 - May 2, 2012, 6:09 am

can we download the re upload please ? ? ?

Phantom2 - May 16, 2013, 3:35 am

Can you reupload v 2.0 please or the source code
