How to make cash with Facebook ?

[img]http://www.toptenreviews.com/i/rev/misc/articles/3128/facebook-cash-f-1.png[/img]

This is a little bit about my personal story and what I did. So basically, I hacked a facebook account which made me a good amount of money. I had a good girlfriend and we knew each other from babies. She was a cool friend but messed up the things a lot. One night we was at a party and most of us were already drunk including she. This where the story starts actually to be a little bit hotter, so she was acting on the internet like a Mistress. (I take my rights to don't say any names) I am a man and I couldn't stand. After we were all drunk, she tried to act like a Mistress and to make me to obey of her. I was like WTF!? I really didn't expect this from her because she knew that I was a completely different person. I hit and I dumped her outside the house after that the party continued and everything was fine. When I woke up in the morning I realize that I have a good chance now to earn some cash from nowhere and I hacked her facebook account. It was really a gold pit. I was already familiar how the things goes and the only thing I should do is to answer of their PMs. She had a decent big Mistress Facebook account and everything I was doing was to get some bucks. Yeah, believe me it's as easy as it sounds. Everyone was PMing saying that he want to serve me and all these shits. After that he recieve a PM that he must pay first and after that he will get the chance to serve me. I was chatting with the so called slaves over MSN and basically talking shits to them. It was a bit hard actually from the beginning because WTF I should say to these people but I got really familiar with it by the time and it was like a piece of cake after a while. So I made a good amount of cash and I am happy with that. I am saying it once more that this is a gold pit, as the costumers (slaves) are so fucking dump, that they will really serve to someone. I am finished with this but anyone that has got some free time should definitely give it a try to this method and make some cash. Check out below to see and follow the simple steps.

First Step

You must get a decent big Mistress Facebook account with a lot of slaves as friends, if you can't - Make one new and follow the steps below.

Second Step

You must like all "domination" groups, so slaves could possibly see you from any of the groups and contact with you for a session.

Third Step

You must have some nice Mistress photos on your Facebook profile, and remember set your account options, so that only friends can see your photos. Also, remember to make your representative photo a good one.

Forth Step

If you did all these steps above, you should sit and wait for PMs. (You will get PMs after a while, believe me) after that everytime you should respond with: "Pay me, and after that you will have your chance to serve me!" or "Send me tribute if you want my time...until I receive money I have no

interest whatsoever." or something similar. And most of the times you should convince them to pay you with Amazon Gift Card for example, as it's really a easy and safe way.

Five Step

If you got payment, get them on your MSN and start messing with them. You can even infect them with your server and do whatever you like. Also keep saying them that they must pay weekly to serve you or something like this.

Note: They will do whatever you say, believe me! So, grab your chance now and make some cash over this pussy.

Thank you for reading it. Also, if you've found this tutorial useful, please leave a comment.

Good luck! ?

Phrixus - January 17, 2011, 8:45 pm

Is there anyway for them to track any information once you give them your MSN? And would you recommend infecting them?(Doing so would probably serve as a good deterrent to not nosing around) I'm not all that great at the infecting part so I thought I'd ask.

Nixus - January 29, 2011, 12:45 pm

Tell them the amount is the there offering, the better the offering, the more pleased theyre mistress will be with them, might get lucky and get some showoff to send you big bucks and want you to move in with them, just dont move in with them ffs.
