I made national tv for hacking our police... It's a shitty, rundown, backwater country and I'm only on for a couple of seconds, but still..

You can check it out here: <http://beta.mnet.co.za/carteblanche/Article.aspx?Id=4134&Showid=2>

My face is obviously blocked out...

Nice achievement if that is actually you. ?

Enigma - November 17, 2010, 3:16 pm

Nice wanna explain how you did it lol?

ThankYouAndGoodbye - November 17, 2010, 3:17 pm

Very nice, im of the mentality that the best hackers are the ones you never hear about, but i would like to know how they found you?

BguyTheKing - November 17, 2010, 5:11 pm

I really like it. Keep going with your work :)

maybeDeToX - November 17, 2010, 6:04 pm

Very Cool Man!!! BAHAAAAHA FAIL On There Part!

ShadowCloud - November 17, 2010, 8:54 pm

Hehe, yep I can actually prove it was me... Originally I contacted the police to try and help them fix it (as mentioned in the vid) I'm not a malicious hacker. After not receiving a response for over 2 weeks, a friend of mine gave me the contact details for the guys at Carte Blanche... I still have the mails :)

It was actually extremely easy... They use oracle instead of SQL and I have to admit, I needed to download a oracle manual to do it, but once I got the syntax and their DB structure figured out, it was pretty simple.

Sick, can you do what you did on the internet and put someone on the most wanted list still?

ShadowCloud - November 17, 2010, 10:02 pm

Not using the same method, since the vid, they have contacted me and I have assisted them in fixing that specific vulnerability.

Liberalisten - November 20, 2010, 2:41 am

Cool, thats a bragging right :P

You should of said that people could sign up to HF under your refferal ?

Enigma - November 20, 2010, 12:07 pm

Did you get paid for helping them fix it?

ShadowCloud - November 28, 2010, 9:20 pm

Haha, get paid to help government? They can barely pay their own :P

FightingDeed - November 29, 2010, 11:38 am

If thats you, you really should have a hair cut.

iDope -- - November 29, 2010, 11:41 am

You actually did something bragworthy!

COngo on that. And also, good job that you at least reported to them!

\$ zS \$ - November 29, 2010, 1:26 pm

DUDE! I made national television too, they were recording this Asian festival and I was working and I walked by cleaning tables without noticing it until I passed by, I was like HOLY SHIT, I just walked across national TV cameras!

Happeh - November 29, 2010, 1:46 pm

I wasn't impressed with the hacking; but with the white hat. That was great of you to help.

Chronic. - November 29, 2010, 4:28 pm

Nice job man is that really you and do you live in Africa?

Shadows - November 29, 2010, 4:53 pm

Nice job, I think people like you are rare, thats a good thing.

Magnetic - November 29, 2010, 5:03 pm

Nice vid bro. That is one cool story :)

What hacking? They really didn't show any of it, can't have me educating people in the public on how to hack our police's website now can we?

This wasn't done with any malicious intent and quite honestly the initial hack did take a bit more than just your average SQL injection and I seriously needed to dust off the Oracle manuals.

I work in this industry and I don't see myself as a thief. The hardest part of being an ethical hacker is the ethical part not the hacker part.

Mermaid - December 1, 2010, 7:58 pm

lol put some guy on the wanted list xD

MyNameIs940 - December 2, 2010, 12:22 am

Congratulations, that is a pretty cool achievement.

Zeon - December 2, 2010, 9:22 am

What country do you live in?

Maine. - December 2, 2010, 7:18 pm

Haha nice. I would be scared as shit when they found out though.

System32™ - December 2, 2010, 7:25 pm

Lol. This just really made my day.

Nice job bro!

I have actually cut my hair since...

EDIT: Or more accurately I had my hair cut. I did not cut it myself.

Wow, getting into trouble with the police. No doubt they seized your computer or something like that? Guess that brings some great publicity to HF and it's whitehat motions, then.

was this gravedig post really necessary?

The Network - April 28, 2011, 6:29 pm

Lol , Annoy this guy and you'll have the African police after you , haha.

Grats on your minute of fame :D
