NEOBUX

Well before joining or start earning from any website it is necessary to know the secret behind the success. Let's discuss the process now.

A 15 Minutes / Day work can fetch you more than \$700 / month...!!!

What is NeoBux ?

Why should he pay me ?

Is this a real website ?

Can I make a living from this website ?

This guide will answer all the above questions and make you ready to earn an incredible income online.

1) Hello Be Straight - What is the Concept of this Website ?

This website falls under the category PTC. This expands to Paid To Click. They are advertising firms who pays the user for clicking ads.

2) What is an ad ?

An ad is a website that is being displayed in the PTC website.

3) How much I earn ?

You can earn \$0.02 (Rs.1) by clicking an ad for 30 sec.

4) How much ad I can click a day ?

You can click from 4 to 15 ad per day.

5) Only 15 ads. How Could I ever make a living from 15 Rs. per day. Are you mad ?

Wait wait. Yes you can only earn a maximum of Rs. 15 from your clicks. But this is only a pea nut. The secret behind earning in these websites is REFERRALS.

6) Ok. Who is a referral ? How can I earn from him ? and How can I get him ?

A referral is a person who clicks just like you. If that referral is under your downline you earn commission (\$0.01 or 50 paise per referral click) for the clicks he made. You can get referrals by renting in NeoBux.

7) Why are you confusing me. What is renting and all these stuffs ?

A little patient please. A referral is a person who is in your downline and every time he clicks an ad you get paid. You can rent referrals from this website.

8) Ok. How much I earn from a referral ? How much is the total money I earn a day ?

It all depends on the number of referrals you have and the number of ads they click a day. Just a small calculation.

1 Referral clicks 15 ads a day = \$0.15

If you have 100 referrals then your daily income = $\$0.15 \times 100 = \$15$ or Rs. 900

Your Monthly Income = \$450 or Rs. 27,000

Your Yearly Income = \$5400 or Rs. 2.7 Lakhs.

This is just a calculation. There are some members who have 15,000 referrals. Then, imagine their earning potential.

9) By the way, how much time I have to work daily ?

Just 10 hours.... Hi, Hi. I am sorry its just 10 minutes. If you follow the steps given below you just need to work 10 minutes a day and can earn thousands.

10) Are You Confident to take a decision, that can change your life ?

Yes. Show me now.

Steps Involved:

1.

Register at [Neobux \(use this link plz yes it is ref\)](#). The process is simple.

1.

Register at AlertPay and PayPal. Both are the payment processors. I recommend you to use paypal, as you can withdraw the money earned to your bank account or draw a cheque that could be mailed to your postal address.

2.

Daily click ads in the server time.

3.

Rent referrals.

4.

Manage them properly by recycling.

5.

Move to a golden member.

6.

Move to an ultimate member.

7.

The above 7 steps takes some time. By this time, you will be drawing more than \$500 or Rs. 25,000 per month. Thus, you can easily earn money by sitting before your computer.

this is really non descriptive for a guide such as

"Rent referrals.

4.

"

The renting of the referrals is how you make all your money, and it is kind of the only thing that requires thought on the site and you say it as "rent referrals" Maybe you should say like once you get \$1 rent 3 referrals or something. I am not bashing your guide i am just trying to help.

Suomi105 - December 31, 2010, 6:30 am

I was just wondering how someone can click 15 links in one day. What I know is that max is 8 when you are upgraded member.

Realist - December 31, 2010, 6:45 am

Ad is an advertisement?

Sltaervseen2 - March 25, 2011, 6:11 pm

I have a friend that does this and it works it just takes time...

chris0147 - March 25, 2011, 6:22 pm

lun471k - March 25, 2011, 6:31 pm

Hmmm the guide sucks.

Why? Because NOBODY, you read that? NOBODY can get a Referral avg click of 15. I have 35 refs, been 1 month and 3 days that I'm registered. I have an avg of 1.02 clicks/day for my refs.

Good luck losing invested money!

Nelson™ - March 25, 2011, 10:55 pm

In my opinion, NB is a waste of time. When you think about it, you don't make much. Most people get averages of .7 to .8 on the forums. If I invested to get 500 referrals, it would take a few months to get my ROI back.
