You may be wondering "What Booter on HF is the best?"

There are many booters on HF which will claim to be the best on HF. Most of theses booters are truly lies. I'm not here to tell you why you should buy my booter - I'm here to tell you what's unique about my booter, and why it's viewed as HF's #1 booter by many members on HF. DoSbox contains HTTP Flood, DoSbox's HTTP flood will devastate websites!

DoSBox also contains a powerful DDoS bringing down Steampowered.com, Skype.com, Netflix.com, Hostgator.com and more!

DoSbox is also web based which means you can DDoS from anywhere in the world using your cell phone, PSP, or anything that has an internet browser.

DoSbox has been the longest lasting booter. It was the third booter ever released on Hackforums. Lastly, DoSBox is a very trusted name in the booter industry and always will be.

DoSbox has lasted a little over 6 months. Double, sometimes triple or even 6 times longer than regular booters.

Regular booters normally die off in their 1,2 or 3rd month.

Can you possibly make a video recorded with camtasia and the resolution in 1280x720 and take down tinychat.com ;) ? Then I will buy it once you go to the site and type in tinychat.com and see if it is down.

If not its a shitty booter and the screenshots are fake hence that in google chrome you can right click and inspect the element and change the text of any webpage.

Nice booter but is it real ;) ? Make a video I would love to buy 5 copies for my world of warcraft clan. Stop trashing his thread idiot, this booter is one of the first and longest lasting booter.
