no1me - November 24, 2010, 4:15 pm

look nice
you make it ..
well i see lots of help post
nooo [\(Click to View\)](#)kidding tnx

njinja - November 24, 2010, 4:18 pm

I just try to develop a useful application,I know I'm far from over complite app but I try and I shall try

no1me - November 24, 2010, 4:23 pm

(Nov 24, 2010 05:18 PM)njinja Wrote: [\[CITE\]](#) I just try to develop a useful application,I know I'm far from over complite app but I try and I shall try
its ok
you make good work

njinja - November 24, 2010, 4:29 pm

Thank you,means a lot to me

Hecker21 - November 24, 2010, 4:55 pm

Looks good so far ;D
Keep it up!

KingCobraXD - November 24, 2010, 5:03 pm

O.o Looks very nice man. =)

njinja - November 24, 2010, 6:49 pm

Thanks everyone, I have a lot of ideas that I plan to realize in this project.I hope you like it!

Contra - November 25, 2010, 2:12 am

How accurate is this? I'm interested in helping code

njinja - November 25, 2010, 2:18 am

Contra i post source code hire you can download then update source with yours code's and post source hire

MCart - November 26, 2010, 4:32 am

Nice project njinja! Thanks for sharing

njinja - November 26, 2010, 2:32 pm

no problem man :) i add some new funcions soon i will post update app hire

FamousMassacre - November 26, 2010, 2:41 pm

I made something like this for doxing ^_^

Toxic Asshole - November 26, 2010, 3:21 pm

holy shit thats fucking awesome! Nice job!

[Chocobro] Nilef - November 27, 2010, 2:02 am

This is impressive work. Tidy it up and keep it going :)

xCocaine - November 27, 2010, 2:11 am

I like it, nice work mate :)

njinja - November 27, 2010, 2:28 am

thank you all for support, means a lot to me and work will continue :)

Grizzly KI - November 27, 2010, 2:38 am

This looks awesome. Good job.

Edit: Can you re-upload this, link seems to be dead.

njinja - December 2, 2010, 10:39 am

Hire is some update for this program for NetStat monitor...

Coded update for this program save all netstat informacion to txt file

Code Private Sub Timer1_Tick(ByVal sender As System.Object, ByVal e As System.EventArgs)
Handles Timer1.Tick

Dim outputstream As StreamWriter = File.CreateText(Application.StartupPath &
"net-stat-conn.txt")

Dim s As Short

Dim newstr(7) As String

Dim I As Integer

Dim TextA As String

Dim TextB As String

Dim TextC As String

Dim TextD As String

Dim TextE As String

Dim TextF As String

Dim textK As String

Dim TextG As String

Dim ItemCount As Integer

```
ItemCount = Me.ListView1.Items.Count
```

```
For I = 0 To ItemCount - 1
```

```
For s = 0 To 7
```

```
newstr(s) = ListView1.Items.Item(I).SubItems(s).Text
```

```
Next
```

```
TextA = newstr(0)
```

```
TextB = newstr(1)
```

```
TextC = newstr(2)
```

```
TextD = newstr(3)
```

```
TextE = newstr(4)
```

```
TextF = newstr(5)
```

```
textK = newstr(6)
```

```
TextG = newstr(7)
```

```
outputstream.WriteLine(TextA & "|" & TextB & "|" & TextC & "|" & TextD & "|" & TextE & "|" &  
TextF & "|" & textK & "|" & TextG)
```

```
Next I
```

```
outputstream.Close()
```

```
End Sub
```

```
prew...
```

```

S!rk0 - December 2, 2010, 10:42 am

Spoiler ([Click to View](#))

Unassigned file limit of 10 downloads reached

So can you update the source link ?

njinja - December 2, 2010, 10:51 am

I will tomorrow upload again source

ok I found the time so I upload the file again

here it is Link [Download Source](#)

to include update code need one timer and call for timer1 i put him in form load and text info from netstat go in main folder of application

Code was on hackforum i jüst mod it for my netstat
