Thread: [\[TUT\] How to get Girls/Female victims in your RAT.](#)

supersurfer - November 25, 2010, 9:17 am

Today I am going to tell you how to get Girls/Female victims in your RAT.

This is my first TUT so am very versatile to get comments.

Steps:

- 1) You need to have a RAT, just choose one of your choice or the one in which you have command
- 2) You need to have FUD cryptor and FUD Binder. I am using ownz cryptor and its awesome. To get the owns cryptor [click here](#)
- 3) Now the main step. Download a girls software from Google for ex:
[Free Female periods software](#)
or
[free female personal diary software](#)
or
[Detailed ebook on pregnancy](#)
or
[Free recipe guide](#)
or
[Home management software](#)
- 4) Now its time to use the binder, bind your server with these programs and don't forget to clone the file assembly settings.
- 5) Put your binded server in a .rar file, you need to have winrar for this (everyone does have)
- 6) Upload your .rar file which has your binded server to free hosting, I personally use [www.multiupload.com](#), it uploads to many sites
- 7) Now the actual task, you need to create account on few forums where girls are active too, some of them are:

[www.girlsonlyforum.com](#)
[www.women-health.com](#)
[www.femalenetwork.com](#)
[www.dirtytalkforum.com](#)
[www.girlsforum.com](#)
[www.desionline.com](#)
[www.coolyarforum.com](#)
[www.theattractionforums.com](#)
[www.sexforum.com](#)

Make a fake account with the name of a Girl and post a mature picture so that it look real. I personally used [www.femalenetwork.com](#).

8) After you have created a account on any forum, don't just start your thread with infected attachment. Make few post, introduce yourself in the forum, have a chat with members.

9) Once you are known, its time for you to make a thread. Keep in mind the file you downloaded and binded the server with. Make a thread giving the detail about the software, the details can be found from the place where you downloaded the software (you don't need to be a girl to know all about them ?)

10) You can also spread the same file on the torrent sites, you can find so many tutorials here for torrent spreading.

11) Kaboom.. you will definitely get many female victims in few hours.

losdhfu - November 28, 2010, 5:33 am

An easier thing to do is, use something that contains something to do with Justin Beiber and you will have MANY girls.

This is good; if people choose more 'female specific' binded files then the chances are they will get more unique female downloads.

Mindhacker.v - January 9, 2011, 5:14 am

there are still many ways to get female victims. it's only a one way to do that.

btw, read this:

http://www.google.com/search?hl=en&source=hp&q=hacker+webcam+arreseted+4+years+17-year+&aq=o&aqi=&aql=&oq=&gs_rfai=

pretty goddamn nice. a guy tried to make her pose naked in front of the webcam, it's a really cool idea. but it's just that he had too little brains to make it wiser, so that she would have no other way but to agree. he also didn't take care of his anonymity. here's the result. by the way, he should have came back from the prison already.

p.s. i'm kinda good at social engineering and i know how to make practically any girl do whatever you want using just your rat and your brains and stay behind the 100% anonymous proxy even when getting backconnected by the victim but i can't tell ya yet. wait, i'll publish my own rat tool (which's gonna be the best one that ever existed) and my own articles and ways of getting female victims. wait ;)
