Thread: [\[FREE\]Signature Making!\[FREE\]](#)

Star Pker - November 25, 2010, 10:58 pm

Basically, I am bored and want to make more signatures.

Code Size: (Max for signatures on HF is 650 x 200)

Main Text:

Render:

C4D:

Basically for people that don't know what some of this stuff is (I didn't know till started graphics).

Render: It is the main thing of picture, choose them <http://planetrenders.net/>

Example:

http://planetrenders.net/renderers/displayimage.php?album=11&pid=45664#top_display_media

C4D: The effect of the picture, can still get at <http://planetrenders.net/>

Example:

http://planetrenders.net/renderers/displayimage.php?album=10&pid=15679&message_id=dcab70cf0f4366f2c24e3c4ef65ba28c&message_icon=success#cpqMessageBlock

Main Text: Pretty simple, its normally your name or the main text you want on it.

Can you do me one?

If so,

I want the words "why so serious" going across it.

A picture of "the joker"

And a background that goes with it.

Sorry for offtopic/spam posting, but you need to add depth into a render a background to make it look better. Just some C4D's and text makes it look rushed/spammed.
