(HIGH PRIORITY)

Okay so i need you to rate my new signature Please 10/10 and tell me where i can improve

Its kind of like an exploding/burning turtle:

Okay so i need you to rate my new one 10/10 and tell me where i can improve,
I tried to make it quite light because all my others are usually dark ^^:

(LOW PRIORITY)

Here are my old signatures:

(My name used to be fallout 3 btw)

Haha, i'm no GFX Pro. but they look fine to me. except you cant really tell the turtle is 'exploding'

8/10!

The only one I really like is the fallout one, and that still needs some work.

TBH I don't like the second one at all.

The first one seems to bright and the render is only visible by it's head and body + limbs, hard to see the shell.

Thats point :D

So it looks like its shell has burnt off/exploded XD thats why it has a menacing face :D
