Thread: [Help Crack This Hash + SQL vuln sites](#)

[A] - June 7, 2009, 9:00 am

Hello people i need help crack this hash given below , i sql injected a website and got the admin user name and password but the password is i think is in md5 , I have tried my decrypt er but none is working and another question is that it takes a lot of time to search for sql vuln websites with Google dork commands , is there any "good" software to find ? I am using diamonVulnscanner but it isn't the best so please help me out here ?

Hmm, well no one is gonna brute force it for you, and <http://www.md5decrypter.co.uk/> doesn't have it, so you're pretty much SOL.

Dam, yous stupid. He's trying to crack a hash, hes already did the injection. Reiluke is a good

hacker, you are not.
