What Is The Ebay Elites?

The Ebay Elites is a group of members who will sell MSDN keys to make big profit over time. The Only Job the members need to do is simply sell MSDN Keys, and they get so much money per each key they sell. Not any member can make it in this group, and each member will be reviewed be for entering our group. We are not going to be a group that dies after the first month, or that does nothing with its members and becomes inactive.

Why do I have a feeling this is just a big scheme to get you more money? Just a thought.

Trihunter3 - November 28, 2010, 4:47 pm

We will gain money, and so will the members, My part of the money i gain, some of it will go toward Hackfourms since omni is having problems at the moment with money issues.

Edit- What the other group leader does with his money is his choice.

Kr4z1 - November 28, 2010, 4:48 pm
