Please post an online virus scan report of the executable mate.

Here's the link: <http://vscan.novirusthanks.org/>

Thanks.

I recommend using VirusTotal or Jotti since those detect more malware then NVT does.

This file seems suspicious. If the user does not upload a scan result, download at own risk..

Also, isn't this wrong section?

Got any evidence to backup your claim?

And @ OP: Post a virus scan of the file to show this file is not infected

Fallenbot - December 7, 2010, 12:44 pm

Please provide a screen shot of this keygen along with virus report,thank you.

Distributing what? The keygen or your server? ?

Blahthero - December 8, 2010, 8:40 pm

Wait what type of virus is this?
