Fallenbot - December 4, 2010, 3:52 am

Seems quite impressive. Does this tool require .net framework? If yes which version(s)?!

?F?(A)?™?? - December 4, 2010, 5:29 am

Good Share Downloaded :) Nice

eXero - December 4, 2010, 8:11 am

I am not sure which version .NET framework it requires but I would think it would require .NET framework.

.Astro - December 4, 2010, 8:13 am

I think it requires 3.5 or 2.0 But it's just a guess. When do you think you can fix the problem? I really want to get back at a site.

eXero - December 4, 2010, 2:33 pm

Um when I have time. My hosting company just launched.
