Thread: [Graduating High School](#)

Yo,

Well guys, i've done it. Graduated High School. Its been a long haul but finished! I started last year at a community college getting my AA, and am finishing that this year. I could have waited to graduate high school until next semester but decided to just go ahead and fill out the paperwork a semester early! It is nice to know that that's all under my belt.

Feeling Good,
Smurf
