Brief Plot Summary:

The protagonist's father makes a deal with a devil. Shortly thereafter, a succubus visits the hero's home. She was there to fulfill his father's contract. However, she falls in love with our hero at first sight, and decides to live with him and his sister-in-law instead. Soon the succubus' mother comes knocking, and even she wants to move in on the action! Of course, being succubae, they need to get laid once in a while to keep going-might as well give them what they want!

Overall Rating: 4.5/5

Gameplay 4/5:

Classic eroge format :) There are many routes to take. Finished the game in about 2 days. There is a good system of checks and balances within the game to make sure that you will not just do whatever the hell you want and get away with it.

Artwork: 5/5

CG in this game is AMAZING. The art was really well put together, but I might be a bit biased because I enjoy the new school type of animation over old school types (liek the kinds you would see on anime prior 2000). Either way I really enjoyed every scene.

Story: 4/5

It follow the typical fantasy story of any ecchi anime. There is alot of sis con action so for those of you who enjoyed animes like Oreimo you will absolutely LOVE this.

Would you recommend this?

Absolutely. This game is a great starter game for newbies. After this game I went on an eroge streak and downloaded about 10gb of eroge to play over xmas. Definitely check it out!

I was wondering what Eroge was whenever it was mentioned in Kissxsis. I suppose this is just a PC game?

Yes this is for the PC.
