Thread: [\[Mass Mail Sender\] I Need To Mass Mail People.](#)

JORD4N - December 8, 2010, 11:00 am

Hi hack forums, i have just created a website and i need to mass mail some email address, i have a list of 8million emails what i found on this website.

Could someone help me out im kind of new to this i have searched the forum but 1download was a virus, and the others dont work, i put a lot of money into this project but im now stuck on getting traffic

Thanks ?
