Thread: [Bomblader Offline Encrypter Decrypter](#)

Blue Screen of Death - December 9, 2010, 8:04 am

Bomblader Offline Encrypter Decrypter supports following encryption/decryption methods:

AER-256
ZARA-128
ATOM-128
HAZZ-15
SIMPLECRYPT
OKTO-3
BASE-64
TIGO-3FX
ESAB-46
RC4
EZIP-64
ARMON-64
GILA-7
FERON-74
TRIPO-5
ZONG-22
ASCII
ROT-X

XOR Some Decryptions could be bugged... I will update them as soon as possible...

Enjoy this nice release:)

You need .Net Framework to run this application.(.net Framework 2.0)

<<<Download>>>

<http://www.mediafire.com/?kztkz0j5cbzb5ji> VirusScan:

<http://www.virustotal.com/file-scan/report.html?id=fbd19eab20b0ae3789ba656810854e4ab3007bae617aa2f7088d3a4b82f2cc14-1291910771>

nobody downloaded it yet...? post your opinions please.. ty

Fallenbot - December 9, 2010, 8:32 am

Please provide a screenshot mate. Quote:You need .Net Framework to run this application. Could you tell us which version of .net framework?!

Blue Screen of Death - December 9, 2010, 9:53 am

you need .net Framework 2.0

Dr1v7r - December 9, 2010, 10:00 am

0/43? Seems weird.

Ran in sandboxie and its safe.

Will test an encryption soon, GUI Needs improvements though.

Over-all: Goodjob.

Blue Screen of Death - December 9, 2010, 10:47 am

thanks... it is safe... why it should't be 0/43?

SimplicityHacker - December 9, 2010, 11:07 am

Screenshot ehm?

Spoiler ([Click to View](#))Code Short ehm?..

Dr1v7r - December 9, 2010, 11:17 am

(Dec 9, 2010 11:47 AM)bomblader Wrote: [\[CITE\]](#) thanks... it is safe... why it shouldn't be 0/43?Idk usually FUD Loggers are 0/43. but since you do have a title & are trusted I tried it and its safe.

Blue Screen of Death - December 10, 2010, 3:31 am

Thanks for posting the screenshot;)

Blue Screen of Death - December 11, 2010, 5:43 am

Thread back in top.. Waiting your suggetions..

ellytranha - December 29, 2010, 2:11 am

good post but could you explain how to use it,thanks in advance

D1G1T4LM4N_616 - December 29, 2010, 2:25 am

you can use this to make passwords to protect your app..among other things =]

good job mate :)

i like this peice of software

-mothered- - December 29, 2010, 2:49 am

A great tool to have on hand.

I don't believe crypto.com, has all the methodologies listed, so this'll come In very handy Indeed. Thanks.

Th? Jok3?™ - December 29, 2010, 5:09 am

have u picutre for that tool !!!

i think is great cool tool..

cheerss

Blue Screen of Death - December 29, 2010, 7:19 am

Here is a screenshot with the program.

Th? Jok3?™ - December 29, 2010, 9:07 am

ok nice ty you for picutre !!

cheers

pr0t0typ3 - December 29, 2010, 9:37 am

And where are my credits here ?!

I gave that rep for a good reason leecher.

[ZERO] - December 29, 2010, 9:40 am

This kind of application has been released countless times on HF.

At least give credits to pr0t0typ3 when using his functions.

kbhawkman - December 29, 2010, 9:46 am

Why are you leeching this shit from pr0t0typ3?

This thread was created: 12-09-2010, 08:04 AM

pr0t0typ3's was created: 09-11-2010, 10:11 AM

exact same thing except this thread has no credits....

Blue Screen of Death - December 29, 2010, 10:40 am

I did not used Pr0t0type Functions;)

I took them from somewhere else, not this Forum. The one who posted them didn't required credits.

iZan - December 29, 2010, 10:45 am

This is a very nice tool, hence I have pinned it to my Task-Bar. I actually like the GUI since blue is a bright color :). I have encountered a few problems when using this tool. It will say 'Programming Not Responding' after about 5 minutes of use. The other problems have gone away.

Blue Screen of Death - December 29, 2010, 11:24 am

Credits to pr0t0typ3

ok... you received credits.

btw, i really need to obfuscate all projects?:(

edit.. aww. can't edit the first post:(

asiong - December 30, 2010, 5:28 pm

well this cool tool instead decrypting in site we have it in our pc and the gud thing about this is u can open it many time gud work for the coder and the one who posted it in here thanks guys
